I'm not robot

Continue
The debit and credit system is precisely on the basis of the double entry system of the book rights. This is very useful, but the debit and credit system can require a sophisticated employee. However, no company can afford such a waste of money. In general, only those who have been trained and employed in the field of double entry and bookkeeping in the company can do it. The entry of debit in the right-hand column of the account and the entry of credit in the right-hand column of the account is a serious error.
